

ID-140 Study Guide

Test 1 October 3rd

- 10 True/False
- 7 Multiple Choice
- 6 Multiple choice-slide identification
- 11 short answer – slide identification
- 4 discussion questions
- 1 5 point bonus question

Know the difference between an interior designer and an interior decorator (be specific, three E's)

Know at least 8 different career possibilities or areas of specializations for an interior designer

Know the different ways to create rhythm in an interior and briefly discuss how each is achieved.

Be familiar with Universal Design, ADA and Sustainable design

Be able to identify and briefly discuss the following acronyms: ASID, IIDA, NKBA, , NCIDQ, IDEC, LEED, VOC, ADA

Know the difference between a title act and a practice act and which state was the first state to get interior design legislation.

There will be 6 multiple choice slide identifications and 11 short answer questions related to the design elements and principles. IE: Which type of color scheme is represented? Which type of pattern is represented? Which design principle is represented? What repeated element is obvious in this interior?

There will be 10 True/False questions on topics from design judgment, line (meanings), receding colors, value, analogous color schemes, repetition, and the beginning of the profession (history).
